

DMT is a globally active company with 280 years of experience. With 13 engineering and consulting companies at 30 locations and more than 1,100 employees around the world, DMT focuses on the markets of plant and process engineering, infrastructure and civil engineering, as well as natural resources and energy. DMT is part of the TÜV NORD GROUP.

At DMT Geosciences Ltd., based at our location in Calgary, we are currently seeking to fill the following position:

Junior Geophysicist

The responsibilities of this position will include:

- Conducting geophysical surveys including seismic refraction, seismic reflection, electrical resistivity imaging, electromagnetics, gravity, magnetics, and ground penetrating radar under supervision of P.Geo.
- Support for developing proposals.
- Conduct field-level quality control of geophysical data.
- Fulfil field level HSE requirements.
- Write field reports.
- Processing of geophysical data in the office.
- Preparation of project reports.

The ideal candidate will have:

- M.Sc. or B.Sc. in geophysics or a related field and ability to register with EGBC or APEGA.
- Enthusiasm for Geophysics
- Willingness to work outdoors for extended periods (up to 10 hours) in a variety of weather conditions (including arctic conditions) and environments.
- Ability for high level critical thinking and technical rigour.
- Programming skills are an asset.
- Valid driver's license.
- Adaptability and the ability to improvise to achieve objectives with minimal supervision.
- Strong written and verbal communication skills.
- Competency with MS office, and the ability to quickly learn new software.

We will provide:

- Training on all the above described geophysical surveys.
- Necessary safety training.
- Continuing support from senior geophysicists.
- Support towards the acquisition or maintenance of professional designation with APEGA, EGBC, or other professional designation.

Why you should choose us

- Competitive compensation packages.
- With DMT you will be a part of a supportive, young, dynamic team and will have exposure to a multitude of geophysical methods and diverse experiences.
- We provide a competitive pension plan.
- Comprehensive benefits plan.
- Options for remote office work.
- As part of the larger TÜV NORD group you may have opportunities for international work all around the world.

How to contact us:

We look forward to receiving your application, indicating your salary expectations and earliest possible start date. The TÜV NORD GROUP is committed to diversity and equal opportunities for all, regardless of age, gender, disability, religion, ethnic or social background or sexual orientation.

We thank you for expressing the interest to work for our company. However, due to limited resources, we only contact you if we move forward with your job application.

Please send your resume and job application to sam.chen@dm-group.com
